JH's Image of the Month: Peacock Feather on CX300

This month's image highlights the stunning microstructure of a peacock feather, captured using the CX300 scanning electron microscope. The intricate layering and fine detail demonstrate the CX300's ability to deliver high-resolution imaging across complex, natural materials.

Learn more about the CX300 SEM

Sensofar Calibration Certification — Now Available

Our applications and service expertise continues to grow. Recently, Eric Hubacz traveled to Barcelona, Spain to complete advanced Sensofar calibration training with the manufacturer.

JH Technologies can now perform annual calibration certification for your Sensofar system, helping ensure measurement accuracy and long-term system performance.

Product Showcase Event: UC Santa Barbara — Register Now

We're heading to UC Santa Barbara for an on-site JH Technologies Roadshow, featuring live demonstrations and expert discussions.

Featured Equipment:

- Sensofar S Lynx Optical Profiler
- Coxem EM-40 Tabletop SEM
- Leica Microscopes
- Xavis X-ray Inspection Demo
- CSI AFM Solutions

This is a great opportunity to see multiple technologies in action and discuss real-world applications with our team.

Fiscal Year-End Equipment Sell-Off

It's the end of our fiscal year (Jan 31). We are offering our lab equipment at discounted prices to relieve our inventory and get ready for new tools coming this quarter. Our Year-End Sell-Off includes a curated list of equipment available at special pricing.

All units are ready to move quickly, warranted, — perfect for labs planning upgrades or expansions.

See Us at TSM 2026 — Texas Society for Microscopy

We will be exhibiting at the Texas Society for Microscopy (TSM) annual meeting! Stop by to say hello, connect with our experts, and learn more about the latest imaging, analysis, and metrology solutions we support.

Whether you're exploring new tools or looking to optimize your current workflows, we'd love to talk applications and answer your questions in person.
